life to the importance of self-care by teaching from my own experience," writes Cheryl Richardson. "In the past, I've sacrificed my health and my relationships for work, given to others at the expense of my own needs, and watched my dreams slip through the cracks of a busy life. As a result, I've learned a lot about what it takes to put an end to the madness. . . . From years of personal experience, as well as coaching great men and women, I've come to understand that selfishness leads to selflessness. When we care deeply for

courtesy of the world's only major female PUA (pick-up artist), Kezia Noble! Unknown until a couple of years ago, Kezia was approached by the organisers to attend a PUA class meeting. She gave it to the other attendees straight, not caring if she offended anyone; the men took it on the chin and took her constructive criticisms on board. Within days and weeks they were trying out her suggested techniques and starting to become more successful with women. Kezia returned to the PUA classes and started to make a name for herself. Kezia Noble is the first woman to offer the aspiring pick-up artist advice on how to attract women from a woman's point of view. She now runs many classes and a workshop, and even produces corporate videos on the chemistry of attracting

Why anti-lock brakes make us drive faster Why saving money can lead to financial crises How football helmets make the game more dangerous Why letting forest fires burn can be safer than putting them out We have learned a staggering amount about human nature and disaster-yet we are continually unprepared for car crashes, floods, and financial crises. Partly this is because the very success we've had making life safer enables us to take more extreme, different risks. As our cities, transport systems, and financial markets

become more interconnected and complex, so does the potential for disaster. How do we stay safe? Should we? What if our attempts are exposing us even more to the very risks we are trying to avoid? What if acceptance of danger ultimately makes us more secure and prosperous? Is there such a thing as foolproof? In this fascinating account of risk-taking and crisis, Greg Ip presents a macro theory of human nature and disaster that explains how we can keep ourselves safe in our increasingly dangerous world.
