The collection explores how sentiment and relations are organised in consumer markets. Social studies of economies and markets have much more to offer than simply adding some 'context', 'culture' or 'soul' to the analysis of economic practices. As this collection showcases, studying markets socially reveals how attachments between people and products are engineered and can explain how, and why, they fail. The contributors explore the tools and techniques used to work with sentiment, aesthetics and relationships through strategies including social media marketing, consumer research, algorithmic profiling, personal selling, and call centre and relationship management. The arts of attachment, as the various contributions demonstrate, play a crucial but often misunderstood role in the technical and organisational functioning of markets.

What happens when you find The One, but you're just not ready? Jasmine Taylor doesn't have the time or the inclination to settle down. Not since her longtime boyfriend Nicco betrayed her and married another woman. Neither is prepared to give up the no-strings-attached lifestyle, but when Sean finds out Nicco wants Jasmine back, he loses his cool—and lets her go in the process. The only way Sean can win Jasmine's heart is by dropping the playboy act and making a commitment . . . but will she be ready to trust him? Fun, sexy, and touching, Karyn Grice's *No Strings Attached* is an undeniably romantic tale that makes Mr. Right work for the woman of his dreams.

Strings Attached is the story of a brilliant, but ferocious music teacher who came to be known as Mr K. A Ukrainian immigrant who survived an abusive childhood to become a noted resident and teacher, Mr K used music as a means of escape. The authors, who spent their childhoods in the late 60s and 70s, rehearsing and playing together as young musicians, bring the extraordinary character of Mr K to life - from his days as a forced Nazi labourer; to his home life as a husband to an invalid wife; to his heart-breaking search to find his missing daughter; to the terrifying challenges he hurtled from behind the music stand.

The legitimate and illegitimate use of incentives in society today Incentives can be found everywhere—in schools, businesses, factories, and government—influencing people's choices about almost everything, from

financial decisions and tobacco use to exercise and child rearing. So long as people have a choice, incentives seem innocuous. But *Strings Attached* demonstrates that when incentives are viewed as a kind of power rather than as a form of exchange, many ethical questions arise: How do incentives affect character and institutional culture? Can incentives be manipulative or exploitative, even if people are free to refuse them? What are the responsibilities of the powerful in using incentives? Ruth Grant shows that, like all other forms of power, incentives can be subject to abuse, and she identifies their legitimate and illegitimate uses. Grant offers a history of the growth of incentives in early twentieth-century America, identifies standards for judging incentives, and examines incentives in four areas—plea bargaining, recruiting medical research subjects, International Monetary Fund loan conditions, and motivating students. In every case, the analysis of incentives in terms of power yields strikingly different and more complex judgments than an analysis that views incentives as trades, in which the desired behavior is freely exchanged for the incentives offered. Challenging the role and function of incentives in a democracy, *Strings Attached* questions whether the penchant for constant incentivizing undermines active, autonomous citizenship. Readers of this book are sure to view the ethics of incentives in a new light.

The first floor of the building is a puppet theater, museum, and shop, owned by twenty-seven-year-old Mimi Loiseau, who lives on the second floor. Mimi's great-grandmother had always hinted at a unique family treasure, but she died before she could tell Mimi what, or where, it was. Now someone is stealing puppets and vandalizing apartments. Could this someone be looking for the long-lost treasure? Nancy's on the scene just in time to help save Mimi's business—and to make sure they all get home in one piece!

Found unconscious in an impact crater in the Cascade Mountains, with no memory of who she is or how she got there, Sloan Tesha attempts to start a new life as she tries to discover who she really is. Now for the first time, they tell their story in full, offering an emotional and moving account of their journey alongside their exceptional child. She wants one night, he wants forever. Three reasons I slept with my best friend's brother by Paisley Macallister: 1. We laughed all night, the drinks were strong, and I needed to sleep somewhere. 2. I have a weakness for military men. 3. I know he won't kiss and tell. ... but lord when he kisses, he makes me forget I've completely broken the best friend code. So when he makes me a no strings attached offer, I figure we've already done it once. But Hank has never been the type for casual. He's husband material, and I should've seen the problems with this plan from the beginning. As good as he makes me feel, the ink's just dried on my divorce papers. I'm no longer the girl he knows. The Girl He Knows is a standalone book and can be read without reading the others. But you'll probably want to because this group of friends will draw you in, make you laugh, and warm your heart. And the men of Daytona Beach? Oh, they're sexy, protective, and striving to make the loves of their lives happy.

Samar Pratap Singh and Nina Sabharwal can't seem to keep their hands off each other. Yet, they don't quite trust each other either: he thinks she's eyeing bigger fish, she's convinced he's a heartbreaker. They have both decided that falling in love is simply not an option - no strings attached is how they roll. Only, the fact that they have to see each other at work every day makes situations stickier, and the more their lives become intertwined, the more they realize that love - a real and lasting love - is just a leap of faith away. But will they make that leap? Can they? Marriage for many women is simply miserable. And if that's not bad enough, what makes this even worse is that oftentimes it is we men who inject the misery into the marriage (like injecting our favorite marinade into the Thanksgiving turkey). We judge our wives, criticize them, gripe, complain, and fail to appreciate them. Is this behavior helpful? Is it effective? Is it Christ-like? No (and no wonder why the divorce rate among professing Christians is not much different from those who do not follow Jesus)! To tell you the truth, God's plan for the way you treat your wife looks very different. Throughout *With No Strings Attached: 28 Days of Blessing Your Wife*, Dr. Steven Bell details twenty-eight unique ways for you to love your wife unconditionally. Each approach to blessing your wife is simple, yet immensely challenging (and well worth your time). The days of the "status quo" husband are quickly

coming to an end, and our wives need more from us than we've been giving them. Grounded in scripture and a number of other helpful resources, *With No Strings Attached: 28 Days of Blessing Your Wife* provides a clear blueprint of how to take your marriage from miserable to magnificent.

My name is Jude Harris and I'm an adrenaline junkie. If it makes my heart pound and my blood rush, I'm all in. That's how I ended up at the sex club. It was supposed to be one night of fun.No names.No professions.No small talk.Perfect anonymity. One hundred percent no strings attached. I thought I could handle the rules, but that was before I saw her. I should've walked away and forgot the whole thing. Coulda, shoulda, woulda... didn't. Using a Caribbean case study and a Constructivist theoretical approach, The Myth of China's No Strings Attached Development Assistance shows that the frequently mentioned "no strings attached" nature of China's development assistance to its partners in the Global South is nothing more than a myth. This claim is supported by empirical data from Trinidad and Tobago and by comparisons with similar situations in Africa and Latin America. On their basis, the authors propose a critical re-reading of a reality that many scholars are accustomed to watch through the reassuring but distorting lens of academic routine. Despite contrary claims in the literature, Beijing's development assistance to the Commonwealth Caribbean states is accompanied by clear political, economic, and social conditionalities. Through them, China is constructing a cognitive and normative space conducive to a new regional order that should be politically friendly, economically profitable, and socially open to its government, companies, and citizens.
